

File transfer SD card with iPhone

Required items:

- iPhone with at least iOS 12 operating system
- Apple Lightning to sd card camera reader
- Sd card

REV 20220125

- Place the sd card reader with the sd card in the iPhone and unlock your iPhone.
- Find the "files" application of the iPhone using the search function.
- The search function is used by placing your finger on the screen (e.g. in the indicated white circle) and sliding it downwards.

• Search for the "files" app using the iPhone's search function and open the app.

- Under the section "locations", search for the SD card. In this case, the name of the sd card is "no name". This depends on how you have named the sd card.
- Open the sd card by clicking on it.
